TUBO PLAY litter bins boast same unique and ingenious design that conjoins quality, simplicity and functionality in form as TUBO litter bins with a little playfull twist that easily adapts to either exterior or interior environment of playgrounds, kindergardens and amusement parks. TUBO PLAY line was launched as a new line in 2018 as a result of our 20 years of business activity in the playground industry.

TUBO PLAY line includes four bins sizes and six animal and floral motives in different color combinations. It meets all the requirements of a litter bin whilst at the same time retains utter functionality and playfull eye-catching design. Special attention was given to recycling bins because we believe that children should be taught about recycling from their early age.
